)SpectraVerse

SPECTRAVERSE[™]...YOUR OWN HERO'S JOURNEY, ONE STEP AWAY.

)SpectraVerse

SpectraVerse[™] attractions are interactive walking adventures that merge immersive storytelling techniques with advanced media technologies to deliver world-class experiences unlike anything in the market.

In these narrative-fueled, interactive encounters, players have agency to influence the outcome of a joint social experience. This deeper, more personal engagement is redefining how we perceive, explore, and enjoy infinite realms of imagination.

SpectraVerse[™] attractions utilize 3D positional tracking and a real-time game engine to generate dynamic content and perspectives that are specific to each individual guest. A full complement of themed scenic environments, surround sound audio-scapes, lighting, special effects, and other show elements further engross guests in their journeys.

> **CLICK TO PLAY VIDEO IN BROWSER**

comes in two distinct configurations:

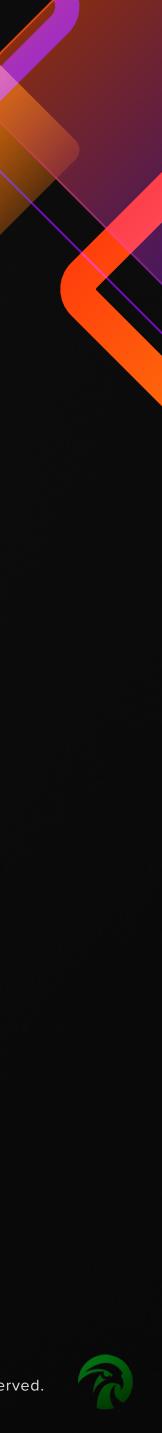

)SpectraVerse opyssey

In the **SpectraVerse Odyssey**[™] attraction, each guest engages with real-time interactive media content as their group travels from scene to scene in a pulsed, walk-through experience.

) SpectraVerse

)SpectraVerse

In the **SpectraVerse Quest**[™] attraction, squads roam freely in a competitive or cooperative interactive gaming environment that adapts to each player's perspective.

Interactivity

A variety of interactive methods or controllers can be chosen that best fit the story.

Storytelling Variety

Various genres are explored, including action, adventure, fantasy, cartoon, science fiction, and horror.

)SpectraVerse

Key Advantages

Near-limitless Venue Locations

Its adaptable footprint is suitable for theme parks, location-based entertainment centers, and more.

Accessibility

Guests with varying ranges of mobility can safely enjoy these experiences.

Unique Perspectives & Content:

Perspectives, and even unique content, is generated and projected in real time based upon actual guest location and viewing angle.
